

## ELECTRIC HEATER

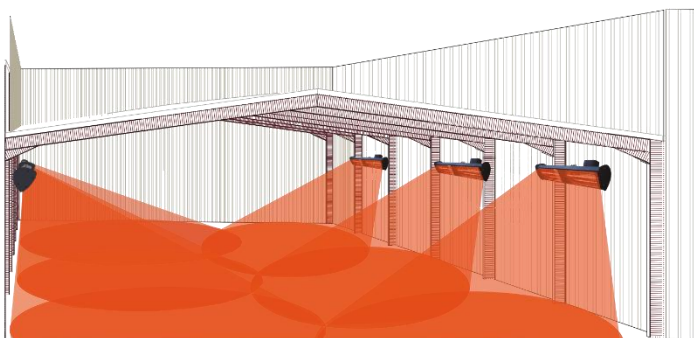

CAL-E

- Design heater
- All-aluminium heater
- Colour options : black / bronze / champagne / aluminium
  - Power modulation option
  - Instant feeling of comfort

## OPERATION

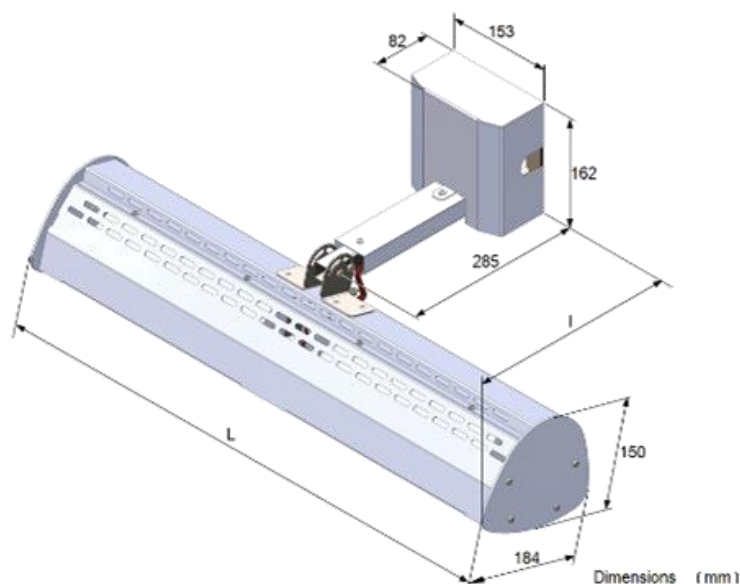

Infrared radiation is one of three modes of heat transport with convection and conduction. It is the only one that can heat spaces effectively like the sun.

It brings **comfort** directly to the level of the users, generating a feeling of **immediate well-being**.

Efficient even for **open terraces** or **churches** that are difficult to heat.

## DIMENSIONS

## ACCESSORIES

- Customizable cover available

## QUICK & EASY INSTALLATION

- Supplied with hanging bracket and connection box
- Quick wiring with automatic terminal blocks
- Wall or ceiling mounting

## COLOR OPTIONS

- Black
- Bronze
- Champagne
- Aluminium

## POWER DIMMING OPTION

- **Power dimmer (between 0% to 100%)**
- **Remote control for dimmer**

## TECHNICAL DATA

MODEL	Cal-E 2000	Cal-E 4000
Nominal power (W)	2 000	4 000
Initial power modulation	0% or 100 %	0%, 50% or 100%
Power supply	230VAC (+10% - 15%) – 50 Hz	
Nominal intensity (A)	8.7	17.4
Protection sign	IP X4	
Weight (kg)	3.5	4.7
Length L (mm)	386	766
Recommended installation height (h*)	2.3 m	2.7 m
Surface heated with h* and i = 15° (outdoor)	11 m <sup>2</sup>	14 m <sup>2</sup>

Certification for domestic use included
